

Finite-Size Scaling and Universality above the Upper Critical Dimensionality
[Phys. Rev. Lett. 76, 1557 (1996)]

Erik Luijten and Henk W. J. Blöte

[S0031-9007(96)00163-9]

\hat{t} was incorrectly printed as t in five places. We list the instances, in the corrected form, as follows: (1) Page 1559, immediately after Eq. (12): “ \hat{t} stands for the argument . . .” (2) Page 1559, column 1, 10th line from below: “When Eq. (12) is expanded in $\hat{t}L^{y_i^*}$. . .” (3) Page 1560, Eq. (13):

$$Q_L(T) = Q + p_1 \hat{t} L^{y_i^*} + p_2 \hat{t}^2 L^{2y_i^*} + p_3 \hat{t}^3 L^{3y_i^*} + \dots \\ + q_1 L^{d-2y_h^*} + \dots + q_3 L^{y_i} + \dots \quad (13)$$
